Aa Name	≡ Decision	📅 Date	👤 Proposed by	👤 Approved by	≡ Context	≡ Options considered	≡ Chosen option	≡ Reasoning	🕒 Status	☰ Affects deliverables
<u>Team structure</u>	Use 5-team structure	May 2	Ⓐ Anthony Osakwe	F Faith GeorgewillⒸ CourierPlusⒼ Goodness NnamdiⒷ Badmus Olamide E Eke Favour Ⓑ Bolanle Ojo-Osagie Ⓐ Nosa Imaralu Ⓐ Anthony Osakwe	Faith proposed 4 team initially, review showed roadmap and metrics belonged to PM, not design and research - - Status: Active	Stick with 4 teams Move to 5 teams. Move to 3 large teams.	5 teams with cross-contribution allowed	Aligns with capstone rubric ownership; lets each team focus; cross-contribution allowed for slackcapacity	Active	1-One-Pager 2-Discovery 3-PRD 4-Design Pack 5-Build 6-Metrics 7-GTM 8-Roadmap & RAC 9-Pitch Deck
<u>Collaboration tool</u>	Use Notion + Google Drive hybrid for collaboration	May 6	Ⓐ Anthony Osakwe	F Faith GeorgewillⒶ Anthony Osakwe Ⓖ Goodness NnamdiⒷ Badmus Olamide Ⓑ Bolanle Ojo-Osagie Ⓒ CourierPlus Ⓐ Nosa Imaralu E Eke Favour	Team needed a single source of truth with authorship visibility and structure protection.	Notion only . Google Docs only Hybrid • Coda-	Hybrid Google Docs for documents (Suggesting mode), Notion for sprint board, decision log,dashboard	Most members new to Notion; reduces learning curve; keeps document writing experience familiar; Notion's database superpowers used only wherethey matter	Active	8-Roadmap & RAC All processes
<u>Decision rules for Sync/Async/Veto</u>	Sync decision is for majority present + Every decision lives om decision log in master folder + Faith has a hard veto on any new feature added after Day 14 + Tony has a hard veto on architecture changes after Day	May 7	Ⓐ Anthony Osakwe	F Faith GeorgewillⒶ Nosa ImaraluⒷ Bolanle Ojo-Osagie Ⓑ Badmus Olamide Ⓖ Goodness Nnamdi Ⓒ CourierPlus E Eke Favour Ⓐ Anthony Osakwe	The team needed a stand on how to ensure constant progress on deliverables.	No chaos, but random brainstorming of ideas and dumping of contributions to be arranged by the various team representatives. A suggestion of fo4mal meeting rules was put up by Tony	SYNC: Simple majority of those present. ASYN: 4 or more explicit “agree” responses in whatsapp within 12 hours, or it defaults to proposer’s call. LOG: Every decision lives in the decision log inside the master	Encourage quick and organis3d sync flows	Active	All deliverables All processes

Aa Name	≡ Decision	📅 Date	👤 Proposed by	👤 Approved by	≡ Context	≡ Options considered	≡ Chosen option	≡ Reasoning	🕒 Status	⋮ Affects deliverables
	18 + if there are defaults to proposes call, then 4 or more “agree” responses in whatsapp are required within 12hours to to sync						folder. VETO-PM: Faith has a hard veto on any new feature added after Day 14. VETO-BUILD: Tony has a hard veto on architecture changes after Day 18.			
<u>Decision for meeting passivity and silent members</u>	Following first-day notice of inactivity, passive members are sidelined from theirsquad's critical path. Their role is reassigned without drama. Re-entry possible if theyengage proactively within 48 hours	May 8	ⓑ Bolanle Ojo-Osagie	ⓐ Goodness Nnamdiⓑ Bolanle Ojo-Osagie ⓑ Badmus Olamide ⓓ Nosa Imaralu ⓐ CourierPlus ⓑ Faith Georgewill ⓑ Eke Favourⓐ Anthony Osakwe	The rules on how to handle silent membership needed to be outlined	(a) Tolerate silence (no action) (b) Private follow-up only (c) Public reassignment after warnings	Following first-day notice of inactivity, passive members are sidelined from theirsquad's critical path. Their role is reassigned without drama. Re-entry possible if theyengage proactively within 48 hours	Protects momentum; rewards engagement; avoids carrying inactive members acrossdeadlines.	Active	All deliverables All processes
<u>Product Name and Identity Lock</u>	LifeLine (single-word brand, capitalised L's) Tagline: "Safety in one tap." Descriptor: "Personal Safety & Check-In."	May 2	ⓑ Eke Favour	ⓑ Faith Georgewillⓐ Goodness Nnamdi ⓑ Badmus Olamide ⓐ CourierPlus ⓑ Bolanle Ojo-Osagie ⓑ Eke Favourⓑ ⓓ Nosa Imaraluⓐ Anthony Osakwe	The PRD originally listed three candidate names (Beacon/Lifeline/Watchlink). To prevent brand drift across deliverables, one name needed to be locked across PRD, One-Pager, Build Doc, Metrics, README, and Pitch Deck.	(a) Beacon (b) Lifeline (c) Watchlink (d) Continue with placeholder	LifeLine (single-word brand, capitalised L's) Tagline: "Safety in one tap." Descriptor: "Personal Safety & Check-In."	Strongest emotional resonance with the safety mission; tagline tests well; descriptor accurately captures both flows (safe-arrival check-in + SOS); already adopted in designpack and demo app	Active	All deliverables All processes

<u>Primary Persona</u>	Sharpest framing for rubric; matches existing wireframe persona; strongest demostory; validated by Amaka O. (student) in discovery; clean expansion path documentedin PRD \$5.2.	May 9	Ⓜ Goodness Nnamdi	Ⓟ Bolanle Ojo-Osagie Ⓜ Goodness Nnamdi Ⓜ Eke Favour Ⓜ Badmus Olamide Ⓜ Faith Georgewill Ⓜ CourierPlus Ⓜ Nosa Imaralu Ⓜ Anthony Osakwe	The PRD listed 7 user segments. Capstone rubric rewards a single sharp persona, not abroad audience. Discovery data (6 interviews) included examples across multiplesegments , but the wireframe persona (Ada Umeh) is a student.	(a) Campus female student (b) NYSC corper (c) Young urban professional women, broadly (d) Multi-persona generic	Campus female student (Ada Umeh, 20, 300-level Biochemistry, UNN). Other 6segments listed as "Future personas for V2+ expansion.	Sharpest framing for rubric; matches existing wireframe persona; strongest demostory; validated by Amaka O. (student) in discovery; clean expansion path documentedin PRD \$5.2.	Active	1-One-Pager 3-PRD 7-GTM 9-Pitch Deck
<u>Roadmap structure: 2 separate roadmaps (Product + Architectural).</u>	Two separate roadmaps. The interactive HTML keeps the gantt as theArchitectural Roadmap (technical capability layers) and adds a new tab for theProduct Roadmap (V2/V3/V4/V5 user-visible milestones from PRD S17.1).	May 15	Ⓜ Nosa Imaralu	Ⓜ CourierPlus Ⓜ Goodness Nnamdi Ⓜ Badmus Olamide Ⓜ Faith Georgewill Ⓜ Bolanle Ojo-Osagie Ⓜ Eke Favour Ⓜ Nosa Imaralu Ⓜ Anthony Osakwe	The team had multiple roadmap artifacts (Gantt HTML, PRD section, README), withtimelines that didn't match. Risk: judges would spot the inconsistency. Discussionclarified that Product Roadmap (user value over time) and Architectural Roadmap(technical capability over time) are two different artifacts - not interchangeable.	(a) Update gantt to match PRD timeline (b) Update PRD/README to match gantt's slower timeline (c) Keep both - gantt becomes Architectural-only; add a separate Product Roadmapview	Option C- Two separate roadmaps. The interactive HTML keeps the gantt as theArchitectural Roadmap (technical capability layers) and adds a new tab for theProduct Roadmap (V2/V3/V4/V5 user-visible milestones from PRD S17.1).	Most rigorous PM answer; matches the canonical distinction taught in PM literature;demonstrates the team understands the difference; preserves work already done; earnsTeam Process points by showing mature thinking	Active	3-PRD 8-Roadmap & RAC 9-Pitch Deck Roadmap-HTML
<u>Pitch Deck format</u>	PPTX with LifeLine brand	May 20	Ⓜ Eke Favour	Ⓜ Goodness Nnamdi	Pitch deck could be delivered as a	(a) PPTX (presentable from	PPTX with LifeLine brand	Single-source-of-truth deck;	Active	9-Pitch Deck
